

Altitude Matters

This one pager newsletter is non-conventional. It will contain video and other links, some text articles, plus assorted photos which are of interest to aviators. It will change as often as the wind does at your airport - or not. Expect the unexpected. We don't really know what are doing - but we love everything aviation - including airplanes!

THE OLD AND THE YOUNG
Flying is what dreams are made of. Remember your youth? Are you passing on the legacy now that you are aging? How exactly?
