1. Chad Garty update – Ariel Tyk told us that Chad suffered an epidural hematoma March 26 when he fell off a hoverboard in Las Vegas, where he was on vacation with his family. He was unconscious for several days. His wife, Rachel, is still in Las Vegas with him. His brother went down and drove the children (ages 15, 17, 18 and 20) back to Kelowna. He is not talking yet because he has a lot of headaches. He cannot fly back to Kelowna until his doctor says ok. David McElroy thanked Ariel for jumping in to keep us updated on what Chad is doing.
